TITLE	Post-Secondary Education Enrollment Data. Basic Data Series 1995.
INSTITUTION	Minnesota Higher Education Services Office, St. Paul.
PUB DATE	Oct 96
NOTE	511p.
AVAILABLE FROM	Minnesota Higher Education Services Office, 400 Capitol Square, 550 Cedar Street, St. Paul, MN 55101.
PUB TYPE	Numerical/Quantitative Data (110)
EDRS PRICE	MF02/PC21 Plus Postage.
DESCRIPTORS	College Freshmen; Community Colleges; *Enrollment; Enrollment Rate; Enrollment Trends; *Higher Education; Place of Residence; Postsecondary Education; Private Colleges; Public Colleges; School Statistics; Statistical Data; Tables (Data); Technical Institutes; Vocational Schools
IDENTIFIERS	*Minnesota; University of Minnesota

ABSTRACT

This report presents data tables providing post-secondary enrollment figures in the state of Minnesota for the 5-year period, 1991 through 1995. The report is organized in four sections, each of which contains separate data tables for state universities, community colleges, technical colleges, the University of Minnesota, private career schools, private colleges and universities, private graduate and professional schools, as well as institutional, system, or state totals. Table groups include: (1) 5-year summaries for each institution, 5-year total enrollment, 5-year full- and part-time enrollment, 5-year male and female enrollment, and five-year enrollment for new entering students; (2) county of residence for new entering Minnesota students and state or country of residence for all students; (3) participation rates for 1995 Minnesota high school graduates, distribution of Minnesota new entering students by year of high school graduation, participation ratios of new entering students who graduated in 1995 versus all 1995 high school graduates; and (4) institutional enrollment. A glossary defining terms used in the report is also included. (CH)

Introduction

The Minnesota Higher Education Services Office annually publishes reports on enrollments in Minnesota post-secondary education. Educational planners, policy makers, and the public use the data contained in this report for descriptive and research purposes.

This report was generated from the Services Office's Student Enrollment Record Data Base, established in 1983. The Student Enrollment Record Data Base contains unit records for students enrolled during the fall in Minnesota's public and private post-secondary education institutions.

Starting in 1994, private career schools that have distinct academic terms and the technical colleges were asked to provide tenth day fall data. In the past, these institutions were asked to provide unit records for students enrolled during the three-month period, July 15 through October 15. Any private career schools that do not have distinct academic terms will continue to provide data over the three-month period, as a proxy for tenth day data. All other institutions provide unit records for students enrolled on the tenth day of fall term. Tenth day enrollment does not necessarily reflect total enrollment. Some students may register after the tenth day of classes, while others may withdraw.

At the time of printing, tenth day fall 1994 and 1995 data were not available from technical colleges.

The report has the following four parts:

(1) Five-Year Summaries

Five-year enrollment summaries are presented for each post-secondary institution. Summarized enrollments include a total headcount, full-time and part-time, male and female, and new entering student enrollments.

(2) Residence

The county of residence for Minnesota new entering students is summarized for each system. Residency by state or foreign country is summarized by system for all students.

(3) Participation in Post-Secondary Education

Participation is presented in three ways:

- Participation rates of 1995 Minnesota high school graduates by gender are presented for each institution.
- The distribution of Minnesota new entering students by year of high school graduation is presented for each institution from 1991 to 1995.
- For each post-secondary system, ratios of new entering students who graduated from high school in 1995 are compared to all 1995 high school graduates for each county by planning region.

(4) Institution Enrollment Reports

Enrollment data are summarized by level of study, gender, and full-time or part-time attendance for each institution. Regular and extension enrollments are included separately.

Glossary

Academic Year — the period of time, typically from fall through spring, when institutions traditionally have conducted their instructional activity.

Credit-Based Instruction — organized instruction that is part of a major program of study in the technical colleges.

Extension — instructional credit courses or programs managed by an extension division or similar unit, which is separate from the regular instructional administration within an institution. (See *Regular*).

First Professional — professional school or program which requires at least two academic years of college work for entrance and a total of at least six years for a degree. Examples include chiropractic, dentistry, law, medicine, theology and veterinary medicine.

Foreign Student — a student whose residence was located outside the United States or its territories, or who was reported as a nonresident citizen in the United States on a temporary basis.

Full-time — registration for credit hours, course load, or other required activity amounting to at least 75 percent of the normal full-time load during an academic term.

Graduate — a program of studies culminating in the attainment of a master's, specialist, or doctorate degree.

Headcount — the number of individuals enrolled at a post-secondary institution.

Hour-based Instruction — organized instruction that is not part of a major program of study in the state's public technical colleges.

New Entering Student — a student who is enrolled at a post-secondary institution for the first time and who previously has not been enrolled at another post-secondary institution, except as a secondary student. This category includes students who entered with advanced standing, through college credits earned before graduation from high school, performance on Advanced Placement or International Baccalaureate exams, or other measure.

Part-time — registration for credit hours, course load, or other required activity amounting to less than 75 percent of the normal full-time load during an academic term.

Racial/Ethnic Background — the group as reported by the student. This is the group with which the student identifies. The reporting options are: American Indian or Alaskan Native; Asian or Pacific Islanders; Black, non-Hispanic; White, non-Hispanic; or unavailable.

Regular Student — a student enrolled for credit in courses or other required activity offered through what the institution has established as its regular instructional administration. (See *Extension*).

Residence — the place which the student identifies as his or her address at the time of application for admission to the post-secondary institution.

Secondary Student — a student who is concurrently enrolled in high school and a post-secondary institution.

Unclassified Graduate/Professional — a student enrolled for graduate credit whose status as a graduate or professional school student has not been specified.

Unclassified Undergraduate — student enrolled for undergraduate credit whose specific class level cannot be specified.

Part 1. Five-year Summaries

Part 1 contains the following five-year summaries of total headcount enrollments for Minnesota post-secondary institutions:

- ***Five-year Summary of Total Headcount*** presents the total number of individuals enrolled the tenth day of classes for fall terms 1991 through 1995. Until fall 1993, technical colleges and private career schools reported headcount enrollment for the quarter ending October 15. Starting in fall 1994, all technical colleges and private career schools with distinct academic terms are reporting tenth day fall data. The percent change columns compare fall 1995 enrollment to fall 1991 and fall 1994.

- ***Five-year Summary of Full-time and Part-time Enrollment*** presents the distribution of total headcount by enrollment status. The table also displays each institution's full-time/part-time ratios for 1991 and 1995. A full-time student is registered for credit hours, course load, or other required activity amounting to at least 75 percent of the normal full-time load during an academic term. Part-time students are registered for less than 75 percent of the normal full-time load.

- ***Five-year Summary of Male and Female Enrollment*** presents the distribution of male and female students for each institution from 1991 through 1995. Students whose gender was not known are not tabulated.

- ***Five-year Summary of Total New Entering Students*** presents total new entering students at each institution for fall 1991 through 1995. The percent change columns compare fall 1995 new entering student enrollments to fall 1991 and fall 1994.

****

Fall 1994 and 1995 tenth day data from the technical colleges were not available at the time of printing. Not all private career schools report headcount annually, which creates some difficulties in historical comparisons.

Part 2. Residence

Residence by System summarizes the residence of students by their post-secondary system of enrollment in fall 1995. The residence is the place the student identified as his or her residence at the time of admission to the post-secondary institution.

For each post-secondary system, residence is tabulated in two different ways:

- ***The County of Residence*** is presented for new entering students who are Minnesota residents, along with their full-time or part-time enrollment status and gender.

- ***Students by Place of Residence*** by level of study is presented for each system. For all new entering students, their full-time or part-time enrollment status and gender are also presented. Note: *Total Undergraduate Students* includes new entering students.

****

Fall 1994 and 1995 tenth day data from the technical colleges were not available at the time of printing.

Residence reports for individual institutions may be obtained electronically or on paper by calling the Services Office at (612) 296-9692.

Part 3. Participation in Post-Secondary Education

Participation of high school graduates in post-secondary education is presented in three ways. These tables include only Minnesota residents who were reported as *new entering students* in fall 1995.

- ***Participation Rates of 1995 Minnesota High School Graduates*** by gender are presented for each institution. The participation rate is derived by dividing the number of reported 1995 high school graduates enrolled in each institution by the total number of Minnesota 1995 high school graduates.* New entering students who did not report their year of high school graduation or gender are not included; therefore, the actual participation rate may be under represented.

- ***Distribution of Minnesota New Entering Students by Year of High School Graduation*** from 1992 through 1995 is presented for each institution. High school graduates from 1991 and earlier years are combined into one category. New entering students who did not report their year of high school graduation are not included.

- ***Participation Ratios of New Entering Students Who Graduated from High School in 1995 to All 1995 Graduates*** by county are calculated for each post-secondary system. Minnesota resident new entering students who graduated from high school in 1995 in each county are divided by the total number of high school graduates in 1995 from that county. (The method of calculating participation ratios has been changed from previous years when all new entering students were used regardless of the year they graduated from high school). New entering students who did not report their county of residence, gender, or year of high school graduation are not included.

Participation ratios for individual institutions may be obtained electronically or on paper by calling the Services Office at (612) 296-9692.

Fall 1994 and 1995 tenth day data from the technical colleges were not available at the time of printing.

* The Minnesota State Department of Children, Families and Learning provides the number of high school graduates by county.

Part 4. Institution Enrollment

Part 4 summarizes the number of students enrolled by level of study, gender, and full-time or part-time attendance at each institution in fall 1995.

Data on students who are reported as enrolling both as a regular and extension student are included in the *regular student's* category.

Total New Entering Students

Total New Entering Students fo · each institution appear after the *Grand Total*. Any students listed in the preceding categories who are also reported as new entering students are included. (See *Glossary* for a definition of a new entering student).

Racial/Ethnic Background

The racial/ethnic background for all students is included. Students identified with a specific racial/ethnic category such as *American Indian, Asian, Black, Hispanic,* and *white* are either United States citizens, permanent residents, or were reported as **not** residing in Canada or other foreign country.

Foreign students are identified separately and are not included in the above specific racial/ethnic categories. These students are either non-resident, non-United States citizens (this is, temporary residents), or were reported as residing in Canada or other foreign country.

****

Fall 1994 and 1995 tenth day data from the technical colleges were not available at the time of printing.
